EURES CROSSBORDER PARTNERSHIP EXTREMADURA-ALENTEJO'18

EURES CROSSBORDER PARTNERSHIP EXTREMADURA-ALENTEJO'18, is an European Project, which has been initially developed on 2017 as a pilot experience, with a public employment entities partnership, from both sides of border, that has evolved on 2018, entering the organizations that represents the employers entities from Extremadura and Alentejo as well as Fempex (the Federation of Municipalities and Provinces from Extremadura) who has been added to this consortium, offering this way more consistency to reach the goals of this project.

This mentioned proposal, is leaded by **SEXPE** (the employment public service of Extremadura), in collaboration with **IEFP** (the Public Service of employment from Portugal) which in a wide frame of cooperation includes the Business Unions from both sides of the frontier (**NERE** and **NERPOR** from the Portuguese **Alentejo** and **Cresem Foundation** from the spanish Extremadura), with aim of broadening the objectives and services of this consortium.

The goals of this project are to ease the cross border labour mobility, between Alentejo and Extremadura employers and employees. In this sense this bid develops the activities and provide the services aiming to disseminate and ease the labour movement of workers, whether they are employed or self-employed people, in order to do so in the cross-border work frame. Likewise, the execution plan aims to help the employer groups and the group of free job seekers, on both sides of the border, in such a way that they will be able to raise their work

activities on the other side of the line, without finding too many barriers, to be able to do it.

From the **EURES consortium** point of view, we believe that workers and employers, could obtain interesting competitive advantages, developing its labour activities and their business on a cross border level.

For further information we provide the link, where you can see or download the presentation to watch in detail the aims of our project.
